

Whether you are looking to start a new business, buy an existing one, or expand; Community Futures Thompson Country (CFTC) knows that it's not always apples to apples. They recognize that not all business ideas are the same and that is why they specialize in taking a grassroots hands-on approach to supporting their clients.

The success of your business requires professional advice and our staff does more than just provide capital through our loans program. We provide services and program supports to rural, small and medium-sized business owners and entrepreneurs. Our services include:

- Business plan analysis and coaching
- Small business training
- Business financing
- One-on-one start-up or expansion coaching
- Community economic development initiatives
- Support in gaining access to other business supports, information, and access to capital

As a leader in small business development, Community Futures has built a solid reputation in turning business ideas into a business successes. We are the go-to service provider for business plan development. With professional facilitated workshops and training programs to meet all of your business needs.
